

Unusual Incident Reports - Data dictionary

Data Summary

This dataset contains records of unusual incidents reported at DOCCS facilities, central office, and community supervision between January 2014 and September 2024.

An unusual incident report can include multiple incidents; this dataset is structured to have one row per incident. DOCCS defines an unusual incident in Directive 4004 as "a serious occurrence that (1) may impact upon or disrupt facility operations, or (2) has the potential for affecting the Department's public image, or (3) might arouse widespread public interest. In general, any incident shall be reportable under the provisions of this directive which (1) satisfies the definition (above) of 'unusual incident,' or (2) involves use of chemical agents, or (3) involves staff use of a weapon, or (4) results in moderate or serious injury to any incarcerated individual/releasee or staff." More detail about these reports can be found in DOCCS' Directive 4004.

We are publishing both the final, processed table and the source data used to create the table, which we received from DOCCS through a Freedom of Information Law (FOIL) request. This data was redacted by DOCCS as a part of the FOIL process and does not align exactly with the numbers reported in DOCCS' published Unusual Incident Report summaries.

For example, in DOCCS' 2022 "Unusual Incident Report", they report 13,642 incidents in 2022, 3,069 of which were contraband incidents. Our data shows 13,546 incidents in 2022, 3,036 of which were contraband incidents, a difference of 1% or less for both numbers.

The processed data will reflect any data quality issues from the source file.

The data table is shared as a CSV, with a bar ("|") delimiter in place of a comma (","). Missing data is set to Null or "Missing/None".

Data Dictionary		
Field Name	Type	Description
FACILITY_CODE	String	Code representing the facility in which the incarcerated individual is housed. We believe that the first two digits refer to the facility the third indicates the building or unit.
FACILITY_NAME	String	Facility in which the incarcerated individual is housed, defined using the first two digits of the DOCCS facility code. This name represents the commonplace naming for facilities and it excludes references to specific units.

FACILITY_REGION_NAME	String	Facility region, with regions defined by DOCCS as groups of adjacent counties.
FACILITY_HUB_NAME	String	Facility hub, with hubs defined by DOCCS as groups of facilities which are in close proximity. Hubs have an administrative function in DOCCS operations.
FACILITY_SECURITY_LEVEL	String	Security level of the facility the incarcerated individual is housed in, as designated in DOCCS public reporting or, if unavailable, in the NY Codes Rules and Regulations, Title 7. If there are multiple security levels for a given facility, the highest is reported here (Minimum, Medium, Maximum, Drug Treatment Center).
FACILITY_STATUS	String	Indicates if a facility is open or closed as of the publication of this data, Sept 2023 (Open, Closed)

This code can be more than 6 digits when supplemental information was added by the department after the original filing of the report (ex. CCC_NUMBER "233530.01").
FACILITY_LOG_NUMBER	String	Code indicating the unique report number for a given facility. Reports can have multiple incidents, so there can be duplicates of FACILITY_LOG_NUMBER.

REPORT_LOCATION_CAT	String	Location category of the incidents in the report. This field was generated from REPORT_LOCATION_DETAIL to identify types of locations by removing specific details. For example, "Cell 110" and "Cell 5B" would both be changed to "Cell". This categorization has limitations, for example, a location like "SHU Yard" could be categorized either as "SHU" or "Yard". The location categories are the following, with later categories taking priority over earlier (Ex. "SHU Yard" becomes to "Yard" and not "SHU"): 'UNKNOWN'; 'CELL'; 'DOUBLE CELL'; 'DORMITORY'; 'GALLERY'; 'GATE'; 'MHU-OBS'; 'SHU'; 'SHOP'; 'VISIT'; 'RECEP'; 'COMM EMP LOC'; 'OTH COMM LOC'; 'COMUTY RESID'; 'PAROLE OFFIC'; 'PAROLEE AUTO'; 'PAROLEE
